

SCHOOL IS IN ALASKA

The "Red School" Very Few in Wilderness Regions

CHILDREN STUDY HARD

Students Taught Thru the New System

VICTORIA, B. C. — (Special) — The "little red school houses" are few and far between along the British Columbia rocky coast. Often, in fact, they are hundreds of miles apart.

But that doesn't keep the boys and girls of the wilderness from learning their "three R's" even though the children in isolated highlands and on islands, far from shore, are going to school by mail.

By correspondence course, in fact, the provincial education authorities, is giving the educational advantages already the department of education has taught through the mail. Three hundred boys are under instruction now.

At first it was feared the rugged children might not be able to follow the instructions. As it turned out, they have passed their examinations with high marks—often higher even than those obtained by pupils that had the advantage of teaching in the classroom.

For some reason or other, the inspector James Hargreaves, in charge of the work, "they show more enthusiasm than the boys and girls of the regular schools."

Boys' history and literature classes, pupils are instructed to read certain pages and then write in their own words what they have read. Spelling is written in dictation, the aid of the penmanship teacher is used in penmanship and arithmetic and drawing.

Teachers are mailed back to the school, and his aides correct them and return them to the school.

Should it appear a child has grasped the subject properly, a personal letter, making the other planer, is dispatched him immediately.

The system of promotion is the same as in a regular school. Certificates are issued upon completion of the course.

All necessary books and stationery are furnished free. On file in the department's office are any number of testimonials from parents whose children have been educated.

DEMOCRATS TO "SELL" DAVIS

Hull Sees Man of the Hour in Candidate

PROGRAM IS MAPPED OUT

Experts Dig up Record for Campaign Use

WASHINGTON — (By United Press) — Inspired by the leadership of John W. Davis, Democratic leaders today set about "selling" their candidate to the country with a view to winning the presidency and congress.

Without waiting for the selection of a successor, Chairman Cordell Hull of the Democratic national committee has already laid the ground work for a smashing campaign that will carry Davis into every section of the country. "I believe that Mr. Davis should go into every section of the country—the key positions for fighting purposes—to make himself known and his position on all questions of public policy understood," said Hull.

"With that done, Democratic success is assured."

Hull's idea of the general campaign would be to emphasize:

1—A governmental house cleaning.

2—Economic issues.

3—World peace and practical idealism.

Hull said there was no question of Davis' availability to be able to stand squarely on the Democratic platform calling for "clean government."

He said that Davis' public and private records are stainless.

"Regarding the legal services Mr. Davis has performed for Morgan and Co.," he said, "the people will soon learn that his firm is only one of many employed by the bankers and that he personally had no business or political affiliations with the Morgan Co."

"John Davis is just as much opposed to special privileges and the predatory interests as to the rank and file of Democracy."

A corps of experts are busy at the Democratic headquarters digging up Davis' record. His handling of the impeachment of Judge Robert Archbald of the Commerce Court from which the latter was removed for misusing his office by extending a special privilege to certain interests will be stressed in the campaign.

His victory before the supreme court when he argued as solicitor general for the upholding of the Adamson 8-hour law and his handling of the harvester trust dissolution and other big anti-trust cases will also have a prominent place in the campaign.

YOUTH MUST SPEND FIVE YEARS IN REFORMATORY

OTTAWA — McClellan Bell, 16, must serve a term of five years in the industrial school at Lancaster, unless paroled, according to a sentence passed by Judge E. R. Eastman, Monday. Three boys must remain in Lancaster until he is 21, the sentence reads.

Bell, indicted by the grand jury which finished its labors last week, sent a threatening letter to E. A. Michals, well known Fort Jennings resident, demanding that a certain amount of money be left at Kramers' drug store in Fort Jennings before a certain date.

It is expected the boy will be taken to Lancaster within the next day or so.

Of the two indictments returned and made public of the three found, Anthony DeMerleer, best worker, of Fort Jennings, indicted for violation of the prohibition laws, is yet to be arraigned.

Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "Tiz" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

TRUTH THE ONLY AD STANDARD

Houston Reports on Movement of World Clubs

CONFIDENCE IS BUILT UP

Era of Higher Ideals Soon, His Prediction

LONDON — (By Associated Press)—There was presented today for the author, to the Convention of Associated Advertising Clubs of the World, now in session here, a report on the truth movement in modern advertising, made by Herbert S. Houston, of New York, chairman

of the national board of trustees of the vigilance committee.

This movement received the hearty endorsement of the late Walter H. Page, Ambassador to England. Houston wrote, who had once said to him: "There is no place for a double standard in advertising or in publishing. Truth is the one and only standard. It should mark every advertisement, just as it should mark every editorial and every news article. We will see the day when no publication will be better than its worst advertisement."

Referring to the service which truthful advertising, based on confidence, could render the world, Houston wrote: "IMPORT TO CIVILIZATION. This service is of decisive importance to the maintenance of our

present modern civilization. As everyone knows, the economic basis of this civilization is the right of private property—a right that has persisted from Bible times until now. In the industrial era of the past hundred years that right has been threatened in many quarters. Thru the rise of great corporations it has been exercised by a gradually lessening number of people, at least so far as industry is concerned, until today property, in the form of capital, is in relatively few hands and labor is in many hands. While this has been happening with the rights of property, political rights have become almost universal thru the spread of democracy. Manifestly, this is a condition that cannot endure. Property rights cannot continue to be unduly and unfair-

ly centralized in a democratic world."

The report said that truthful advertising was the modern force to defend the right of property by bringing the great corporations of the world into the hands of the public on the basis of private ownership. "Let stock in large corporations be sold in small denominations," Houston's report said, "thru advertising, and presently there will be millions of owners of these corporations where now there are but thousands. Then the right of private property will be defended by the people, because it will be a right that they themselves will widely exercise."

BEAUTIFUL ISLE TO BE PARK

Virgin Wilderness Ideal Spot
for National Reserve

WASHINGTON — (By Associated Press)—A national playground 45 miles long and nine miles wide and embracing 132,000 acres of virgin wilderness, prolific flora, rare orchids and wild animal life is planned by the government on Isle Royale, in Lake Superior. The island, which is accessible to the entire middle west, recently was visited by Stephen T. Mather, director of the National Park Service, who on his return to Washington reported the site an ideal one for recreation purposes. The natural displays on Isle Royale, Director Mather reported, make its permanent preservation of utmost importance, nearly a score of attractive harbors, a like number of lakes and many swift-flowing trout streams providing a fisherman's paradise. Steps already have been taken to secure the island for the government, and Mr. Mather says the genuine public spirit and the sincere interest in its preservation shown by the principal owners and others has guaranteed the creation of a great playground for the American people.

Besides its great virgin forests, the island is said to be inhabited by a herd of 1,800 tame moose, 400 woodland caribou. Thousands of wild fowl and migratory birds visit the island for breeding purposes.

Serve Mueller's Spaghetti instead of potatoes and save your hands. Save time, too; it takes 35 to 40 minutes to peel and cook potatoes, and Mueller's cooks in 9 minutes.

More Economical, and Quick and Easy to Prepare

Mueller's is a much more economical food than potatoes in every way. There are bad potatoes in every basket; you cut away 15% when you peel them, and they are 62% water. Mueller's is 100% food value without waste.

And Mueller's is just as easy to prepare as potatoes. Serve it any way you wish, with sauce, with meat gravies, with sausage.

Instead of creamed potatoes, serve Mueller's Spaghetti prepared the same way. In place of potatoes au gratin, use any one of the Mueller Foods; instead of fried potatoes, fry Mueller's Egg Noodles. No matter how you prepare it, the Mueller taste

spikes Mueller's so appetizing and delicious that it is a welcome and delightful change from potatoes.

Collins' Letter

Much ado has been made during the last several days over the fact that the board of education did not make public the letter of resignation submitted by Superintendent J. Collins at the last meeting. Much has been said and more intimated as a result of this incident where, as a matter of truth, it amounted to nothing.

The Lima News always has been and always will be a staunch advocate of open dealing in public business. It believes that the board made a mistake when it failed to read and make public Collins' letter, thus creating an air of secrecy which always favors of something underhanded. We sincerely hope the board will not repeat the error.

This newspaper had in its possession a copy of the letter soon after the board met and received it. There was nothing in the letter that had not been printed. Even the fact that Collins would resign was excitedly announced in The News weeks ago. It was the fact that he was going to Miami University as a member of the faculty.

If there had been any semblance of a matter in which the public was interested in the letter, this newspaper would have printed it. But the editorial department did not believe that the document was worth the white paper it would have taken to print it for there was nothing contained that had not already been printed in The News so long ago that it was ancient history.

Controlling Sports

Governor Abe Donahay yesterday declared that he would appoint a commission to control all sports for the purpose of determining if it were not for the fact that such a matter must be legalized by action of the legislature.

The governor said he thought it would be a good thing for professional sports. We think so too. If he had seen some of the exhibitions of professional sports in the vicinity of Lima and locally of late, he would be more certain that something is needed.

We would like to see the reform in professional sports come from the inside rather than from the state. There is always so much wire pulling when such a thing is undertaken.

Some branches of sport are being killed by commercialism; others by rowdiness and drunkenness. Baseball, the great national game, is losing much because it is becoming a matter of dollars and cents with managers and players rather than a form of entertainment. Much can be done by club owners to get the game back in the good graces of the public.

Commercialism is consuming the boxing game and making it one of the most despicable in the whole category. When we think of a gang of several thousands pouring money in to the joys of wild promoters at the rate of \$25 a clip we almost feel that lunacy hearing should be set up for the whole lot.

Some branches of sport are being kept clean and above the line that others have slipped into. Tennis and golf are still on a high level and some of the other sports not so generally indulged in are above reproach. Even some of the larger colleges are becoming mercenary in the matter of

football, charging fancy prices for games that bar many of small means where as they should be made as available as possible and still remain on a self supporting basis.

We would welcome the day when sports would attain a higher plane generally. They should exist because of the building of health they might do and the spirit of competition that is always beneficial but state regulation will never accomplish that end, although it might help.

Our Way

Old time on our way the tremendous crowd at ball games, often comment that the country is gone crazy on sports. The amount of money games in Greece were held in a stadium that seated 10,000 spectators.

The Greeks, however, held their athletic meet only once every four years, in August. They wanted time to devote to improving their brains. How we have baseball half the year and other sports the other half with millions of people more interested in sports than anything else.

Americans do everything to excess.

Improvement

Yankee ingenuity improves everything it encounters. For thousands of years—ever since invented by the wife of a Chinese emperor, the oriental silk worm industry has continued almost unchanged. Americans are installing cold storage plants in China, where silk worm eggs will be kept at a scientific temperature and incubated at any season of the year desired.

That's improving on nature, which philosophers say can't be done.

More Progress

A talkless phone for deaf mutes is invented by William E. Shaw of Cambridge, Mass. It works by a typewriter at one end of the line making lamps light at the other end. There's an electric bulb for every letter of the alphabet.

When two people who can neither speak nor hear, can communicate by "phone" it's time to repeat that nothing is impossible. Also that there is no obstacle that can't be overcome no problem or predicament that can't be solved.

Heavy Odds

Nothing is as uncertain as the weather. Despite this, various insurance companies write policies against rain interfering with such things as well as ball games, street fairs and carnivals.

They thought they had the rates figured out on a definite and permanent scientific basis by the law of averages. But the freak weather of the last few years causes unexpected losses to underwriters. Rates probably will be revised.

It's odd that individual gamblers who take a chance on anything don't bet on the weather.

The weather will ever take the place of the sun and moon in the sky, a drink cloud.

A very cold, howling, freezing rain, with much snow, is all that is to be expected.

When a cold wind comes with a weak sun and a few clouds, it is the best of weather.

A cold wind, or a weak sun, or a few clouds, it is the best of weather.

DYSPEPSIA—IT AIN'T NO JO

A quaint query turned up in letter from the Missouri. Several the mail the other day, just as a silver dollar occasionally turns up at the bank. The silver dollar used to be well not a rarity, but now it is. Now one has to go west of the Mississippi to collect the currency and out west one has to expect the most positive determination not to become a victim of currency around the corner from a dollar note.

When I made my first business trip, I started in to practice medicine on private patients and found a good deal of trouble. I had a good deal of trouble. I had a good deal of trouble. I had a good deal of trouble.

Dyspepsia was a very hard diagnosis. Most patients I had liked to have a doctor to consider. I had a good deal of trouble. I had a good deal of trouble. I had a good deal of trouble.

JUST FOLKS

DOG-GONE

He was the mildest sort of man. And yet a fighter, too. When men profane to swear began. And change the air to blue. He'd shake his head and hold his tongue. And still keep plodding on. His strongest phrase when things went wrong. Was just a calm "Dog-gone!"

An oath we've never heard him use. Or any vulgar phrase; Hard luck could never make him lose. His calm and patient ways. When by mischance he'd fail to reach. Some goal he'd set upon. He'd merely punctuate his speech. With just a sharp "Dog-gone!"

He never had to turn to look. If ladies might be near. When him disaster overtook. A little could might hear. All that in rage he'd have to say. His strongest oath was one. That wouldn't drive a bird away. He merely said "Dog-gone!"

Yet I have heard profane men swear. At real or fancied wrong. Spilling out words upon the air. Both picturesque and strong. And with that black and needless touch. I vow today not one. Could ever say or mean so much. As he with his "Dog-gone!"

No Man Stronger Than His Stomach

Dare's Mentha Pepsin Is Helping Thousands Every Day

No man is stronger than his stomach for if the stomach does not digest food properly the nourishment that goes to make blood and bone, brain and brawn is sidetracked and passes from the system without giving the body the benefit of its vital life giving elements.

For indigestion, chronic or acute, for gas, sourness, heartiness and that feeling of suffocation every sufferer fears, time has proven that there is nothing so speedy in its action and so certain to correct the trouble as Dare's Mentha Pepsin.

It's a wonderful compound of pepsin with menthol and other stomach correctives and body tonics and great is its power to overcome stomach ailments and turn run-down, worn-out stomachs into new, healthy ones.

In one small New Jersey town last year over 6,000 bottles were sold and Green's Public Drug Store, Hunter's Drug Store and other druggists in this part of the country report a big sale for this pleasant tasting yet sure acting stomach corrective.—Adv.

THIS BRIGHT BABY GIRL
Brought Joy to Home. Mrs. Price's Health Restored by Lydia E. Pinkham's Vegetable Compound

Scottee, Pa. "I never felt like working, and when I would try to do any work standing on my feet, I would just drag around all day long. At times I would have terrible pains and would be in bed three or four days. I was in this condition about a year when I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers. I had heard different women say it was good for women's troubles, and my aunt thought it would help me as it had helped her. So I took the Vegetable Compound and it brought things right, and I was in good shape before I became a mother again. I believe it helps at birth, too, as with both my other babies I suffered a great deal more than with this one. I thank you a thousand times for the good your medicine has done me."

—Mrs. ROBERT PRICE, Scottee, Pa. Lockhaven, Pa.

In a recent country made canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use.

So with some satisfaction and content, home. To find my wife awake and singing for coffee after having discourse about things I know nothing at all about early to bed.

At the Trust money raised long over words monologues. Which forecasts better things for vacation time. Here's hoping they will be better, or this.

One good thing, there won't be a spell of blinding rain from the clouds and airplanes this fall. My got home and is already in the talk about when he'll live in New York.

RUGGERI TO GO ON TRIAL

Retrial of Assault Case Set for Next Monday

OTHERS TO GET HEARINGS

Five, Held Under Indictment, Will Face Court

Joe Ruggeri, 35, Italian boiler washer, will go on trial for a second time in common pleas court Monday, July 21, on charge of criminal assault, Prosecuting Attorney Lippincott announced Tuesday. He is accused by Lucy Bonanno, 15, of 768 N. Main-st. Ruggeri, who has been out on bond pending appeal of his case in higher courts, is living in Deane-st. with a brother.

He was found guilty by a common pleas jury one year ago, on strength of testimony given by Lucy Bonanno. The girl is a daughter of Frank Bonanno, Italian grocer, 768 N. Main-st. A reversal of the conviction was handed down by appeals court recently, because of error in admission of evidence.

OTHER ACTIONS—Ruggeri case five other criminal actions will be heard in common pleas court. The five men were indicted by the grand jury at various sessions held in the past six months.

Roy Hastings, salesman, indicted on charges of disposing of mortgaged property and forgery will be tried July 23. He is accused by the Cincinnati Finance Co. of selling a car, on which the company had a lien.

Paul Barnett and Judd Simmons, the last two members of the Wolf-Kramer gang rounded up by police during the winter, will stand trial on July 25. Four others, who confessed to robbing groceries on the south side, are serving sentences of 10 years each. It is expected that the court will meet on similar terms, if the two are convicted.

Nick George, Bulgarian grocer, 216 E. Third-st., will stand trial for receiving and concealing stolen property July 25. He was indicted a year ago. John Simanaskis, 144 W. Third, grocer, and police character, indicted with George, pleaded guilty and was fined \$150 and sent to jail for 30 days.

John Lachy, 40, Hungarian, charged with striking a fellow countryman, with a bar of iron at the Superior Body Co. Works, will go on trial for assault with intent to kill July 29.

SKAT AND "OLD SOL" SIGN PACT

"Pardon my back" Skat apologized as he sat in conference early Tuesday morning with "Old Sol" and reached an understanding whereby fair weather is guaranteed for Tuesday night with slightly warmer weather for Wednesday.

"Old Sol" has a grin on his face, Skat says, "but you ought to see mine. My raised ears are accounted for by the extension of my grin because from now on 'Old Sol' will take a vacation only when the demand becomes insistent from farmers for a little rain. In the past it has been as hard to reach an understanding with 'Old Sol' as nominating a nominee at the Democratic convention, but now that every thing is ironed out I guess the people of Lima can look forward to a little enjoyable weather."

TAXES ARE DUE

Federal Special Assessments Must be Paid Now

July will be the last month allowed by the government for the payment of special taxes, after the expiration dealers are liable to a heavy fine.

These special taxes cover dealers in oleomargarine, retail liquor dealers, pawnbrokers, proprietors of billiard, pool and bowling alleys; proprietors of shooting galleries, manufacturers of cigars, etc.

This special tax is reckoned from the first of July of each year, or the first day of the month that business commenced, to the thirtieth day of the June following.

When business is commenced after the month of July the tax to be remitted is computed by multiplying the regular monthly rate by the number of months remaining in the fiscal year and if the amount resulting involves a fraction the full cent must be included.

Deputy collector Marsh will be in his office at the government building, if there is any misunderstanding of the interpretation of the law he should be consulted.

MERCHANTS MAY LEAVE MONEY WITH POLICEMEN

Method to prevent safe cracking in Lima was advanced by Police Chief T. A. Lanker Tuesday in a plan providing for installation of safety deposit boxes at police headquarters for merchants who would deposit the receipts of Saturday's business under guard of police.

Merchants would assume the cost of the safety deposit boxes and also other expenses in connection with the protection that would be granted, according to Lanker who claims that a wave of safe cracking is sweeping the country and safe crackers are the hardest criminals to catch.

Lanker stated Tuesday he may suggest his plan to a number of merchants and if the feeling is satisfactory he may obtain further information regarding the cost of such a depository as would be required for several hundred merchants.

TRADE WEEK PLANS ARE CONSIDERED BY DEALERS

Trade stimulation week, such have been successfully staged in several Ohio cities in the past month, may be launched by Lima retail merchants, according to announcement made by the Board of Commerce Tuesday.

City Acts in Metcalf-st Improvement Program

Resolution authorizing the city to proceed with its share of the improvement of Metcalf-st from Erie subway to Fourth-st was repealed at commission meeting Monday night in favor of new legislation which will be presented and will provide for improvements on a larger scale.

At the conference Monday at city hall of city and county officials with representatives of manufacturing plants interested in the improved Metcalf-st route from Vine-st to Fourth-st, agreement was reached whereby the financial burden will be assumed by all parties interested with the county in charge of the work.

Extension of the Lima City Street Railway Co. tracks to Fourth-st over the viaduct, completing a belt line with the Fourth-st route which connects with the S. Pine-st line is also proposed in connection with the street improvement project.

WOMAN BARRICADES SELF AND STANDS OFF POLICE AND SHERIFF WITH GUN

CLEVELAND — Squads of police were rushed to the assistance of deputy Sheriffs shortly before noon today to a house in E. 55th st., where a woman had barricaded herself and her eight-year-old daughter in a second floor room and was standing off the deputies of deputy sheriffs shortly before noon today.

She fired six shots at deputy sheriffs when they made a first attempt to enter her apartment to take her in charge.

The woman, Mrs. Anna Kress, said to have been held by probate court on an insanity complaint six months ago, has been named in a new and similar complaint and the deputies went to her home to serve a warrant from probate court for her detention.

The deputies and police were concerned for the safety of the woman's eight-year-old daughter, Anna, fearing the mother, in her frenzy might turn her revolver on her.

The police and deputies withdrew from the scene entirely a short time later believing that their presence was agitating the woman and that their withdrawal would tend to quiet her down.

Picnic supper will be served, after which contests and a swimming party will be held.

CHILDREN PLAY WITH FIRE

Warning Issued After Blaze in Residence Garage

DELPHOS — Fire, which threatened the garage and a new sedan belonging to Albert Schmeissel, Jr., was destroyed by fire early last night. A warning issued to all children who make a practice of playing with matches against setting fire to buildings, Frank Grothouse, fire chief, asserted Tuesday morning. Grothouse was called to the home of Schmeissel, Monday afternoon after receiving a call that some children were setting fire to the garage.

Wall paper, and other inflammable materials were found to be stuffed under the two large doors of the garage, and part of them burned. How Grothouse said, the paper was packed too tight to ignite and burn rapidly, thus avoiding a destructive fire.

It was clear that children had done the work, Grothouse said, and all parents should be careful in permitting their children to have matches at all.

HUSBAND BEAT HER, WIFE SAYS IN PETITION

Caveman tactics alleged to have been practiced by Barney Michael, of 826 Albert-st., on Fern Michael, cooled her love, she asserts in a petition for divorce filed in common pleas court Tuesday.

The two were married at Monroe, Mich., June 27, 1921. Little Fern, 23, was born in the following winter.

Michael is charged with failure to provide his spouse with a home or furniture. Neither one owns any property.

The wife relates that Michael choked and beat her and tells of a blow struck by him at the time of the birth of her second child, George. The baby died within a week of the birth.

Hearing on request of Mrs. Michael for a temporary alimony allowance and to fix amount of attorney's fees will be held before Judge Becker July 26.

WASHINGTON WITHIN STRIKING DISTANCE OF CHAMPS

Uncle Sam's Athletic Colony Happy As Larks Over Victorious Records At Olympiad

SENATORS GAIN WHEN YANKS WIN AND LOSE

NEW YORK — (By Associated Press) — By doing one thing at a time and doing it well while the Yankees tried to kill two birds with one stone and failed, the Washington Senators have placed themselves in a position to overtake the American League leaders. As a result of its victory over Cleveland and New York's division of a double header with St. Louis, Washington is not but one game behind the world champions.

Ending Danforth rather soft, the Yankees breezed thru the opener to a 7 to 3 triumph but in the second game they bowed for the third consecutive time before the purling shoots of Winard, Stiller's first rounder, in spite of Ruth's 20th and 26th homers, Huggins' aggression dropped the final 3 to 4.

Washington made it three straight Cleveland with a 12 to 3 shutout. Huggins made a triple, double and a single and walked once in five at-bats, driving in five runs.

The down-brother Athletics springing a surprise on Detroit by tying the score in the ninth and winning out by the 10 to 9.

Boston found the 2 to 1 edge they made off Fawcett's aggression to manufacture enough runs to beat Chicago and the White Sox were victors, 6 to 2.

WASHINGTON — Washington scored over Cleveland for the second successive time, winning 12 to 3. The Senators' victory was aided by a single and walked once in five at-bats, driving in five runs.

Manager Huggins of the Senators, has drawn out his defense suspension for his Sunday run-in with umpire Hohns. Hohns was transferred to second base and Taylor sent to third by the Senators.

Quilna—The Deauville Window—Gloria Swanson, Conrad Nagel, June Elvidge, Robert Cain, and a hundred of the most beautiful California bathing beauties in an outdoor scene of stripes, solids, silks and satins, all of the oceanic and airtorial display which has made Deauville one of the best known bathing resorts in the world.

Lyric—The Chinese-Hawaiian has moved a particularly good race combination," she commented. "In the islands the Chinese strain is usually paternal. The husbands contribute the seriousness of their people, the native wives the gaiety of theirs. These marriages are the happiest I know of."

My GERTRUDE GILHAM—Etta Lee, jet and ivory lady—Lima, is in her slim person the very substance of the orient—as a Chinese and French by lineage, Hawaiian by birth, semi-occidental in schooling, intelligent, fascinating, she presents a rare personality for screen exploitation.

Thus far, although she has given creditable performances in good many secondary roles, her distinguished self has not been wanted full scope. She has been treated as a type, rather than a rich personality within the type.

By heritage, temperament and the trend of self culture, she said, "I am equipped and moved to depict odd, bizarre, exotic, extravagant gesture-thoughts; to interpret the reality of mood, rather than the realism of fact; to show oriental impulse and emotional complexities. But in this field I have not yet had opportunity."

She has just completed a part in the Goldwyn-Metro-Mayer picture, "One Night in Rome," and is preparing for an interval of public school teaching in Los Angeles.

For years she has veered from one to the other. Normal school graduate, with teaching experience both in the States and her native Hawaii, Etta Lee finds no difficulty in combining the two professions. On the island of Kauai she was for a time principal of schools.

Her father is Chinese, her mother French. She is a striking product of that true melting pot of races, the Hawaiian Islands—

of which she speaks with intelligent observation.

"The Chinese-Hawaiian has moved a particularly good race combination," she commented. "In the islands the Chinese strain is usually paternal. The husbands contribute the seriousness of their people, the native wives the gaiety of theirs. These marriages are the happiest I know of."

A visit to Hollywood friends put her in pictures. She has appeared in seven, including, "Without Benefit of Clergy," her first, as an extra; "The Remittance Man," "Cythera," the sandboard slave in "Thief of Bagdad" and the one just finished, "One Night in Rome."

Miss Lee's oriental caste is at once an asset and handicap in pictorial progress. Complattivity in few roles demand an Asiatic. When such a part appears Miss Lee and Anna May Wong are frequently friendly rivals for it.

"And strangely enough," laughed Miss Lee, "although I'm partly Chinese, I've lost several good roles because directors insist that I don't look sufficiently Chinese!"

Etta Lee, with her willowy grace, her purple dark hair, deep bronze eyes, old ivory complexion, alert mind and exotic awareness—when directors discover that they can't convert an American movie star into a Chinese, Japanese or East Indian woman with grease paint and penciled eyes, then Etta Lee will have opportunity to display those emotional complexities and bizarre mimics," she yawns to do.

Beach scenes at Deauville, France, the liveliest summer resort in the world, is the locale for important and colorful sequences of "The Impossible Mrs. Bellow," Gloria Swanson's Paramount picture, which will be on view at the Lyric for three days starting Wednesday.

NARCOTIC RAID NETS MILLION DOLLAR HAUL

NEW YORK—Narcotics valued at more than \$1,000,000 were seized and nine members of the crew, including the captain of the Italia-America liner Duille were taken into custody following a raid on the vessel early today.

The raid was carried out by the narcotic squad under the direction of Chief Narcotic Agent Colonel L. G. Nutt, while the steamer was lying alongside the pier in North river. One hundred packages of the narcotics were found in the crew's quarters, it is said.

BIG RATE CUT—New freight rates twenty per cent under the old rates go into effect this month. Detroit and Cleveland Navigation company's steamers between Cleveland and Detroit, officials announced yesterday.

The purpose of the reduction, according to G. E. Wright, general freight agent, is to stimulate the movement of tourists' automobiles via steamer between the two cities.

MAJESTIC—TODAY "THE COMMON LAW" ALSO COMEDY AND FABLES

Mrs. Drexel To Seek Divorce—NEW YORK—The injuries of John B. Drexel, Jr., of Philadelphia, who was struck over the head by the iron support of a canopy which fell upon him as he was passing along Madison-av, has revealed that Mrs. Drexel is in Reno preparing to sue for divorce, say the New York Times.

Drexel, while still stunned from the blow, told a policeman that his wife was in Reno and subsequent inquiries brought from her the admission that she would ask for a divorce. She said she would base her suit on the grounds of mental cruelty.

Mrs. Drexel was Miss Elizabeth Thompson. She married Mr. Drexel in 1918. They have a son, John Drexel 3rd.

Mr. Drexel suffered a laceration of the scalp when he was hit by the canopy. He is expected to be able to leave the hospital today.

BIG INCREASE IN Demand at Hunter's Drug Store

"Peggen, the medicine sold at Hunter's Drug Store, has surely done my boy Robert, aged five, lots of good," said Mrs. Roush, who lives at 808 Richie Ave.

"For over three months his color was bad and his food did not agree with him. I was most careful about what he ate, but he had a tendency to get sick and vomit after his meals. He was losing weight too and I was worried about his health. 'Peggen' was recommended to me very highly, so I got a bottle

PEPGEN

"Peggen has done wonders for him. His appetite is now fine and he eats anything he wants without getting sick. He is gaining in weight too, and is more lively and playful than he has been for months. I am surely glad to recommend Peggen because of the good it did my boy."

The genuine Peggen may be obtained only at Hunter's Drug Store, 49 Public Square, the Paramount, cor. Main and Wayne Sts. and The Argonne, opp. Post Office.
